OBJECTIVE

Java and Python developer with expertise in back-end development, database management, and problem-solving, seeking to contribute innovative solutions as a Software Engineer.

EDUCATION

Master of Computer Applications (MCA), LJ University, Ahmedabad, Gujarat Expected 2025
Relevant Coursework: Advanced Java, Python Programming, Database Management, Software Architecture

Bachelor of Computer Applications (BCA), LJ University, Ahmedabad, Gujarat 2020 - 2023

SKILLS

Programming Languages	Java, Python, C, PHP, .NET
Web Development	HTML, CSS, JavaScript
Databases	MySQL
Soft Skills	Teamwork, Adaptability, Communication

PROJECTS

Red Store Ecommerce Website.

- Technologies: HTML, CSS, JavaScript, PHP, MySQL
- Description: Developed a functional e-commerce platform featuring a product catalog, user authentication, and payment integration
- Outcome: Reduced product search time by 30% through optimized database queries (MySQL).

Banking System Simulation.

- Technologies: Java, MySQL
- Description: Built a complete banking system with features like account management, transactions, and user authentication
- Outcome: Streamlined database operations to improve system performance and reliability.

EXTRA-CURRICULAR ACTIVITIES

- Attended hands-on workshops in web development and backend engineering to strengthen technical skills.
- Contributed to university-level hackathons, focusing on developing innovative problem-solving strategies.

LEADERSHIP

- Collaborated with peers to organize coding sessions, assisting participants with basic programming concepts.
- Actively participated in departmental events to promote teamwork and knowledge sharing.
